

## Editing your Site

The Instant Niche Sites are built using WP along with the Elementor Page Builder.

After Installing the site you will need to edit the download page so your customers can access the products.

Create a download folder on your web hosting naming it what you would like.

Upload all the zip files you downloaded after purchase. There should 7 in total.

 Articles	19/03/2021 14:46	WinRAR ZIP archive	407 KB
 crypto-logos	03/02/2021 10:20	WinRAR ZIP archive	750 KB
 ebook	23/03/2021 11:29	WinRAR ZIP archive	2,814 KB
 graphics	19/03/2021 14:17	WinRAR ZIP archive	14,602 KB
 License	29/03/2021 10:52	WinRAR ZIP archive	545 KB
 Social Media Quotes	03/02/2021 09:44	WinRAR ZIP archive	8,218 KB
 website	02/04/2021 16:14	WinRAR ZIP archive	31,617 KB

You now need to get the link for each zip file which will look like this example

<http://yourdomainname/yourdownloaderfoldername/Articles.zip>

Now go to your wordpress dashboard go to pages – all pages.

Hover over the Thank You page and choose edit with elementor

**[Thank You](#)** — Elementor

[Edit](#) | [Trash](#) | [View](#) | [EA Duplicator](#) | [Edit with Elementor](#)

The page will open like this

Thank You For Your Purchase Please Click On The Image Below To Download

Download Your Bitcoin Website

Download The Bitcoin Bullrun Report

We will now link each image to the relevant zip file.

Click on the website image

Thank You For Your Purchase Please Click On The Image Below To Download

Download Your Bitcoin Website

Download The Bitcoin Bullrun Report

1. Choose custom url
2. Insert link to zip file
3. Click the settings tab
4. Select open in new window
5. Update the page

Do this for each image and link to their download file. Do not forget to update the page when done.

Once done click the 3 lines in the top left and select View Page and test the links by clicking on each image.
